SUMMARY

Web Developer with hands-on experience building responsive web applications using HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in developing user interfaces, REST APIs, authentication, database-driven features, and responsive layouts. Familiar with debugging, troubleshooting, performance optimization, cross-browser compatibility, Git/GitHub, and maintaining clean, reusable code.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, Node.js Redux Toolkit, React Router, Tailwind CSS, Framer Motion

Web Development: Responsive Web Design, UI Development, Cross-Browser Compatibility

Backend: Node.js, Express.js, REST APIs, Socket.io

Database: MongoDB, MySQL, PostgreSQL

Auth & Security: JWT, bcrypt, Authentication, Authorization

APIs & Services: Stripe, REST API Integration, Third-Party APIs, Cloudinary, Nodemailer

Testing & Quality: Website Testing, Debugging, Troubleshooting, Error Handling, Cross-Browser Compatibility

Cloud & Deployment: AWS, Azure, Vercel, Railway

Tools & Version Control: Git, GitHub

PROJECTS

Shoperia — Full Stack E-Commerce Platform [\(GitHub\)](#)

- Developed a responsive e-commerce web application using React.js, Node.js, Express.js, and MongoDB, featuring product browsing, category filtering, search, cart, checkout, and order tracking.
- Developed and integrated REST APIs for products, users, orders, reviews, and authentication.
- Implemented secure JWT authentication and authorization with bcrypt, including protected user and admin routes.
- Built an admin dashboard for product, order, and review management with Cloudinary third-party service integration for image uploads.
- Implemented CRUD operations, input validation, error handling, and performance optimization for reliable application functionality.

LashChat — Real-Time Chat Application [\(GitHub\)](#)

- Developed a responsive real-time chat application using React.js, Node.js, Express.js, and Socket.io supporting public/private channels and 1-to-1 messaging.
- Implemented real-time communication features including typing indicators, online status tracking, and live room updates.
- Implemented JWT-based authentication and user profile management with protected application routes.
- Built a mobile-friendly responsive interface using Tailwind CSS.

OutDo — Project Management Tool [\(GitHub\)](#)

- Developed a project management app with a drag-and-drop Kanban board (Todo, In Progress, Review, Done).
- Integrated Socket.io for real-time task updates and live notifications across multiple projects and team members.
- Built support for multiple views (Board, List, Calendar) with secure JWT-based authentication and team collaboration via invites.

Hirenixa — Job Portal [\(GitHub\)](#)

- Job listing platform with search/filtering by location, salary, and job type; application tracking and company profile pages.

Spendoray — Expense Tracker [\(GitHub\)](#)

- Personal finance tracker with full transaction CRUD, budget management, and analytics dashboard for spending insights.

EDUCATION

Bachelor of Science in Software Engineering

Capital University of Science and Technology
